

INNOVATIVE PROGRAM DESIGN & DELIVERY

The EdVenture Group designs and delivers a multitude of customer specific, research-based, and interactive educational programs each year. Our programs are designed **with** our clients to ensure they meet unique needs prevalent within your organization. Just as no two school systems or classrooms are the same, no two EdVenture Group programs are the same.

Our skilled staff offer a diverse range of expertise areas and backgrounds, ranging from student engagement to entrepreneurship education. These unique skill sets allow us to tailor our project team to ensure your organization is receiving specialized support. We will work with you to walk through the design thinking process and create sustainable and replicable solutions to your educational obstacles. A few examples of our innovative educational programming include:

- ***In-person and virtual professional development programs***
- ***Adult education programs in technology and computer science***
- ***Youth leadership and social entrepreneurship initiatives***
- ***Entrepreneurship education programs for both educators and students***
- ***Immersive youth summer camps related to emerging technologies***
- ***One-on-one mentorship and individual coaching programs***
- ***Business coaching and organizational trainings***
- ***School culture training and implementation support***
- ***Out-of-school-time program support and curriculum design***
